M70i ISO Forged Stainless Steel Ball Valve for Sanitary Applications (up to 2")

Description

The M70i forged 316L stainless steel, three-piece body ball valve has ISO mounting as standard. It has been designed in accordance with ASME BPE for use as an isolating valve, not a control valve on clean steam and other high purity and aseptic processes where bacteria and media deposits can put product quality at risk. The low maintenance, clean design is suitable for steam, liquid and gas services ranging from vacuum to the higher temperatures and pressures. Applications include the pharmaceutical, biotech, food and beverage and cosmetics industries.

Principal features:

- True port design The internal diameter of the end connections and ball precisely match that of the connecting tubing to guarantee drainability.
- Forged material The M70i is manufactured from high integrity ASTM A182 F316L.
- Low ferrite Body and end connections have <1% ferrite content to help prevent rouge.
- Designed with orbital welding in mind ASME BPE compliant extended tube weld end connections means that automatic orbital welding can be performed without valve disassembly and low sulphur (0.005% to 0.017%) content helps a consistent and fully penetrated weld.
- Designed for automation ISO 5211 mounting pad as standard enabling simple actuator mounting.
- Lockable handle A spring loaded lockable handle allows the valve to be locked in the chosen position – ensuring system integrity.

Surface finish

Standard internal surface finish is 0.5 micron Ra (20 micro inch). Electro-polishing to 0.375 micron Ra (15 micro inch) is available to special order. External surface finishes are as forged / machined.

Available types

M70iV ISO	Virgin PTFE TFM 1600
M70iVEP ISO	Virgin PTFE TFM 1600
	electro-polished to 0.375 micron Ra
M70iG ISO	Mineral filled RPTFE
M70iGEP ISO	Mineral filled RPTFE
	electro-polished to 0.375 micron Ra

Optional extras:

- Extended stem 4" (100 mm) to allow for insulation. (manual operation only)
- Cavity fillers are provided as standard. If cavity fillers are not required please specify when placing an order.

Standards

This product fully complies with the requirements of the European Pressure Equipment Directive 97/23/EC.

Certification:

- Material Certification to EN 10204 3.1
- Elastomer FDA / USP compliance certificate.
- Surface finish certification.

Note: All certification / inspection requirements must be stated at the time of order placement.

Packaging

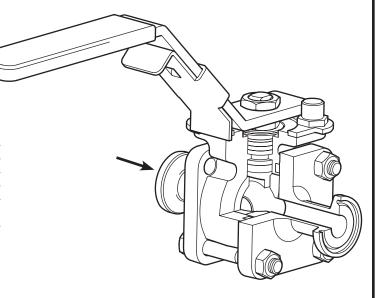

The M₇0i is finished and packaged in a segregated clean environment. Each valve is end capped and sealed in a plastic bag, in accordance with ASME BPE, to ensure the ingress of dirt is avoided.

Sizes and pipe connections

1/2", 3/4", 1", 1-1/2", 2" sanitary clamp (ASME BPE). 1/2", 3/4", 1", 1-1/2", 2" extended O/D tube weld ends (ETO) (ASME BPE).

Sanitary clamp / ETO combinations are also available. 2-1/2", 3" and 4" forged valves are also available to special order. **Alternatively:** 2-1/2", 3" and 4" investment cast sanitary ball valves are available through our M80i range - see TI-P182-06-US.

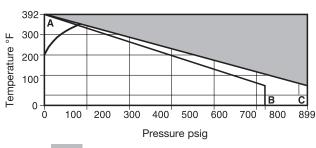

Note: Other connection options are available on request. Please consult Spirax Sarco.

Local regulation may restrict the use of this product below the conditions quoted. Limiting conditions refer to standard connections only. In the interests of development and improvement of the product, we reserve the right to change the specification.

Safety Information, installation and maintenance

For full details see the Installation and Maintenance Instructions (IM-P182-07-US) supplied with the product.

How to order

The M70i has a number of features that must be specified at the time of order placement; they are size, end connection, seat material, internal surface finish, and any certification that is required.

Note: Cavity fillers are provided as standard. If cavity fillers are not required, please specify so, when placing an order.

Example: 1 of Spirax Sarco M70iV ISO forged sanitary ball valve complete with sanitary clamp connections (ASME BPE) and an internal surface finish of 0.5 micron Ra (20 micro inch).

The unit is to be supplied complete with EN 10204 3.1 material certification.

M70i ISO Forged Stainless Steel Ball Valve for Sanitary Applications

Spare parts

The spare parts available are shown in solid outline. Parts drawn in broken line are not supplied as spares.

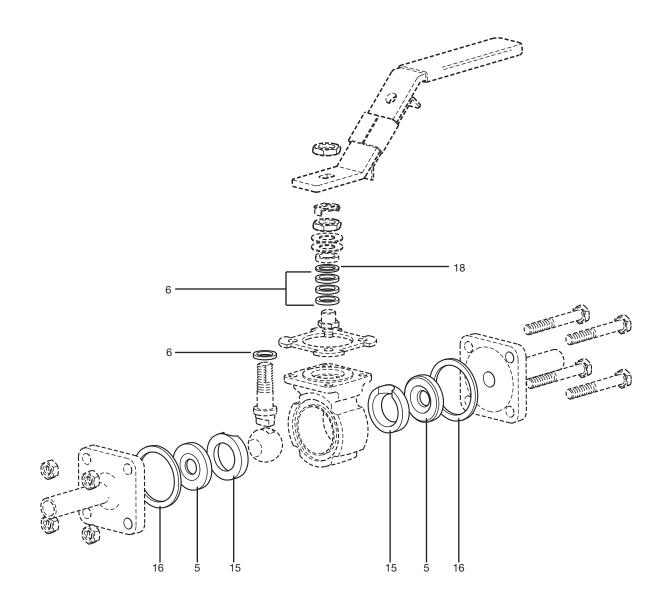

Available spares

Seat and seal set with cavity filler.

5, 6, 15, 16. 18

How to order spares

Always order spares by using the description given in the column headed 'Available spares' and state the size and type of ball valve. **Example:** 1- Virgin PTFE-TFM 1600 seat and seal set with cavity filler for a Spirax Sarco 1/2" M70iV ISO forged stainless steel ball valve.
